ECONOMETRICS | ERRATUM

Bismut–Elworthy–Li formula for subordinated Brownian motion applied to hedging financial derivatives

M. Kateregga, S. Mataramvura and D. Taylor

Cogent Economics & Finance (2017), 5: 1384125

<https://doi.org/10.1080/23322039.2017.1384125>

The above article was originally published with errors in equations (2), (3), (4) and (5) which has now been corrected.

Cogent OA apologises for the errors.

PROOF COVER SHEET

Author(s): M. Kateregga

Article title: Erratum

Article no: OAEF 1427023

Enclosures: 1) Query sheet
2) Article proofs

Dear Author,

Please find attached the proofs for your article.

1. Please check these proofs carefully to identify any errors that may have arisen during the writing or production process. Cogent OA requires that the corresponding author checks and approves these proofs in order to proceed with publication.

Please limit any changes to the correction of errors. We are not able to make stylistic changes, or add or delete material at this stage. We generally expect there to be no more than 30 minor corrections during this proof stage.

Your PDF proof file has been enabled so that you can comment on the proof directly using Adobe Acrobat. This is the easiest and clearest way for you to ensure that your corrections will be incorporated.

Queries are marked in the margins of the proofs, and you can also click the hyperlinks below. Content changes made during copy-editing are shown as tracked changes. Inserted text is in **red font** and revisions have a red indicator . Changes can also be viewed using the list comments function. To correct the proofs, you should insert or delete text following the instructions after the author queries below, but **do not add comments to the existing tracked changes**.

2. Please review the table of contributors below and confirm that the first and last names are structured correctly and that the authors are listed in the correct order of contribution. This check is to ensure that your names will appear correctly online and when the article is indexed.

Sequence	Prefix	Given name(s)	Surname	Suffix
1		M.	Kateregga	
2		S.	Mataramvura	
3		D.	Taylor
